Press to copy file from one device to other.
See "FILE COPY MENU" for more details.
3.2 Getting Started

- Power on the Multimedia player system, you can see the start up page.

- After a few seconds, the system will enter a guide menu.
- To enter this menu, press the "GUIDE" button on the remote control too.
Selecting Video In

To select the input source, select **Video In** button on the guide menu page.

Selecting file Copy

A clip recorded in HDD or USB disc is called a Title. Select **Browser** button on the guide menu page to browse the file under the “My Recording” folder.
Selecting Browser

Select **Browser** button on the guide menu page to browser movie, photo, music files stored either on a HDD, USB, Card Reader, NET or a USB device.

Selecting Setup

To enter the setup menu, select **Setup** on the remote control or select **Setup** button on the guide menu page.
Selecting Time REC

To enter the Time REC setup page, select Timer REC on the remote control or select Timer REC button on the guide menu page.
3.3 Format Hard Disc

When you insert a Hard disc on the system at the first time, System will remain you to enter the Hard disc format interface. You can also press \( \text{SETUP} \) into Setup menu and select HDD Format to Format HDD.

First, the system will jump a warning page.

![Warning Page]

Press \( \downarrow \) and \( \uparrow \) on the remote control to select you wish. When highlight move the OK button, Press \( \text{ENTER} \) to enter the next step. Otherwise, select cancel to return.
**Step 1:** Please according the screen remain to adjust the capacity.

Use ⤧ and ⤨ to adjust the Fat32 and NTFS partition.

Press ⤧ and ⤨ on the remote control to select back or next.

When highlight move the Next button, Press ENTER to enter the next step. Otherwise, select back button to return.
Step 2: Hard disk format

Press ⬇️ and ⬆️ on the remote control to select back or format. When highlight move the Format button, Press ⏪ to start. Otherwise, select back button to back.

---

Multimedia Player User Manual

Step 2: Hard disk format
Step 3: Congratulation page

When complete the format, the system will display the congratulation page.

Select OK button and Press enter to exit.
3.4 The REC List

The **REC List** menu allows you to play all saved titles.

When you press the REC button to begin recode. System will make a “My Recordings” folder at “HDD1” or USB device automatically for the first time. And your recode movie file will be saved at this folder. The file name will be renamed according to system time.
3.5 Timer Record Menu

The **Timer Record** menu allows you to create, edit and delete recording schedules and view all schedule status and history. To enter the menu, select **Timer Record** from the **Guide** menu.

### 3.5.1 Creating a New Schedule

Press ◀ and ▶ on the remote control to select the **Edit** tab from the menu bar. Select **Add a New Schedule** and press ◀. The schedule setting screen appears.
Use ◀ and ▶ on the remote control to move between fields and Press ◀ and ◀ to adjust each setting.

<table>

TV System

Select to adjust TV system.

When insert HDMI TV, TV System only choose Auto EDID, 480P, 576P, 720P 50Hz, 720P 60Hz, 1080i 60Hz.

Press ⬆️ and ⬇️ to set the HD Resolution, depending on your viewing preferences. Press ENTER to confirm.
3.6.3 Changing Audio Settings

Press ◀ and ▶ on the remote control to select the **Audio** tab from the menu bar.

**Night Mode**

Select to toggle Night Mode on and off. This function reduces the maximum dynamic audio range.

Press ◀ and ▶ to to enable or disable the function. Press ENTER to confirm.
Select to set Digital output type.

Press ▲ or ▼ to select from HDMI and SPDIF RAW or LPCM. S/PDIF (Sony/Phillips Digital Interface Format) carries digital audio signals between the DVD recorder and other component devices, such as a home theater setup with surround sound.

The HDMI (High Definition Multimedia Interface) is a compact audio/video connector interface for transmitting uncompressed digital streams. It represents a digital alternative to consumer analog standards such as Radio Frequency (RF) coaxial cable, composite video, S-Video, SCART, component video, D-Terminal, and VGA.

RAW data is the original bit stream and will provide a better audio output quality.

LPCM is the default setting, and provides 2 channels audio output.
3.6.4 Changing Record Settings

Press ⬅️ and ➡️ on the remote control to select the Record tab from the menu bar.

**Quality**

Select to set the default recording quality setting.

Press ⬅️ and ➡️ to select the quality setting you require.

The highest quality setting is HQ which requires the most storage space. The other settings reduce recording quality sequentially but also require less storage space. Press 🅰️ to confirm.
### Permanent timeshift
Select to set the Permanent timeshift on or off.
Press ↗ and ↘ to select. Press ENTER to confirm.

### Record Device
Select to choose the device to which to record.
Press ↗ and ↘ to select to record on either HDD or USB. Press ENTER to confirm.
3.6.5 Changing Photos Settings

Press ◀ and ▶ on the remote control to select the Photos tab from the menu.

<table>
<thead>
<tr>
<th>Slide Show Time</th>
<th>Select to set slide show time.</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Slide Show Time" /></td>
<td><img src="image2" alt="Slide Show Time" /></td>
</tr>
</tbody>
</table>

Press ◀ and ▶ to select the interval you require.
Press ENTER to confirm.
### Transition Effect

Select to set the transition effect of photos.

![Transition Effect Menu]

Press << and >> to select the transform of photo you require:
1) Cross Fade – fade in and fade out
2) Left to Right- from left to right
3) Top to Bottom- from top to bottom
4) Waterfall – like a steep descent of water from a height
5) Snake – like snake motion
6) Dissolve – like water dissolve
7) Strip Left Down – like strip cover from top of left to bottom of right
8) All Effect Shuffle – shuffle in and out

Press ENTER to confirm.
Background Music

Select to play the music file under the same folder.

Press \( \uparrow \) and \( \downarrow \) to select the position of the background music. Select “off” to close the function.

Press \( \text{ENTER} \) to confirm.
3.6.6 Changing Network Settings

Press ◀ and ▶ on the remote control to select the **Network** tab from the menu.

Select to set the Network Setting. Before use the Network functions, please check following items:
1) Connect the MKAVHDD to Network first.
2) Please enable NetBIOS of TCP/IP on computer.
3) Please turn off your PC’s firewall.
4) Please share the folders which you wish to browse in your PC.

Press ◀ and ▶ to select DHCP(AUTO) or FIXED IP(MANUAL).
Press ▼ to confirm.
**DHCP DNS(AUTO)**
Set the DNS server IP address by auto. Press **ENTER** to confirm.

**FIX IP (MANUAL)**
Using Fixed IP, it is required to enter followings. IP address, Subnet Mask, Default Gateway. For further assistant to above settings, please contact to the network administrator. Press **.navigate to enter the IP address.** Press **ENTER** to confirm.
3.7 Browser Menu

The Browser menu allows you browse and play music, photo and movie files stored on a HDD or an external USB device and Card reader, Network. To enter the menu, select Browser from the Guide menu.

Press and to select the device on which the media is stored. Choose from HDD, USB (for media stored on an external flash disk), Card reader, NET and press .

When data on HDD, USB device or Card reader is connected the system to Network, you can also browse photos, listen to MP3 files, and watch videos.
My Short Cut

When you are browsing NET, you can choose the PC name from the menu or you can set “Specific File Server IP” and access it from “My Short Cut” in the menu.

My Neighbors

When you are browsing NET, When you install “Transcode Server” in your PC, you can choose the PC name from the menu or you can select “My Neighbors” to access.

Note:

If you install the “Transcode Server” in your PC, the system will support the H.264, RMVB, WMV, RM... format playback through the NET.
3.7.1 Browsing Music

Use the left and right navigation arrows to select the **Music** tab.

Press † and ‡ to select the folder containing your audio files. A thumbnail strip appears at the bottom of the screen, along with song information. Press † and ‡ to select the file you want to play and press ENTER.

This browsing music function supports WMA, AAC, OGG format Playback.
3.7.2 Browsing Photos

Use the left and right navigation arrows to select the Photos tab.
